BAPS + WRAPS

Concept project for a pop-up food truck imagined within the creative community at Alserkal Avenue, Dubai.

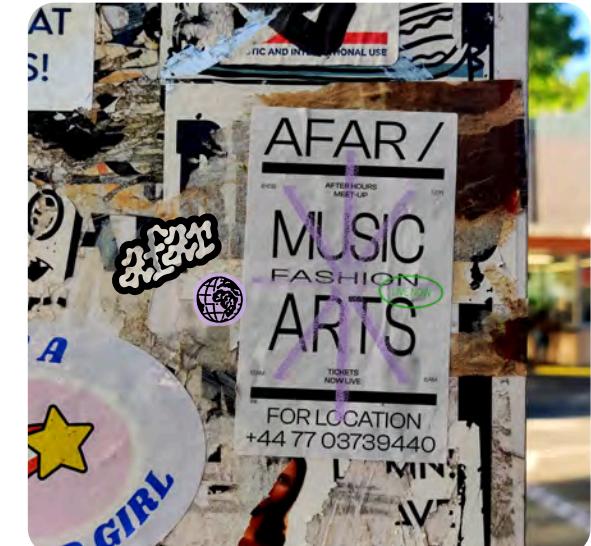

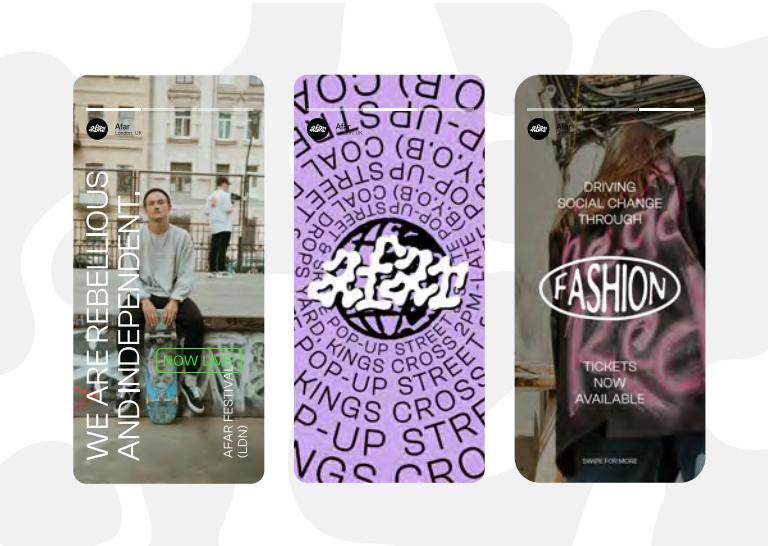

I developed a brand identity that celebrates the quirky sandwiches, artisanal wraps, and the vibrant spirit of collaboration and inspiration among Alserkal Avenue's creative community.

Concept project for a creative festival imagined in London, focused on driving social change through fashion, music, and arts.

I developed a comprehensive brand identity to capture the festival's mission and energy, exploring visual elements that connect with a diverse and socially conscious audience.

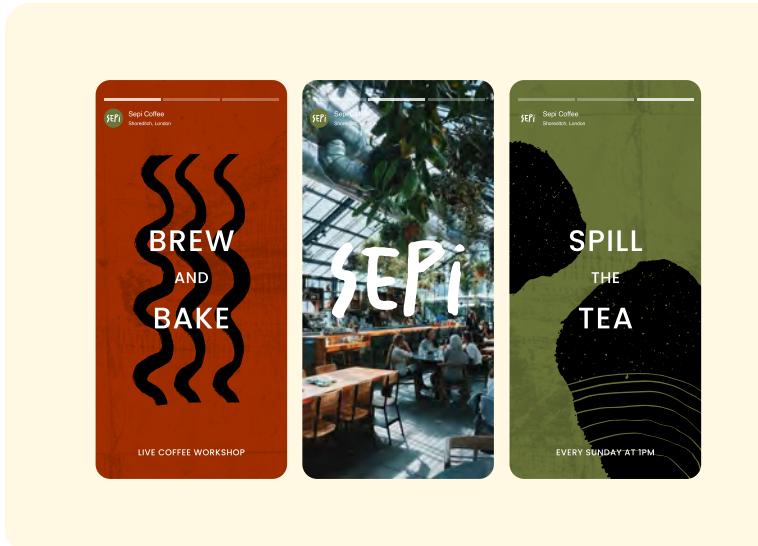

SEPi

Concept project for a boutique coffee shop imagined in the heart of London.

I explored naming, brand identity, website design, social media assets, and print collateral to showcase my approach to building a cohesive brand experience.

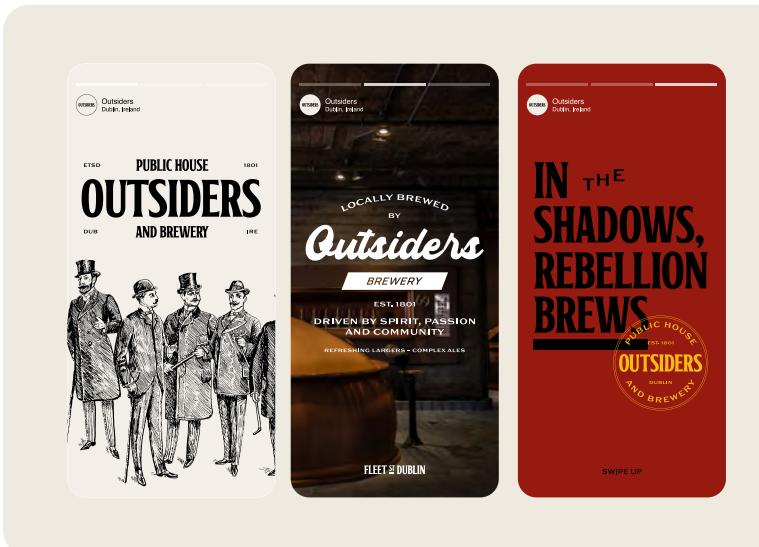

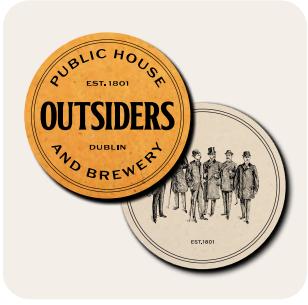

OUTSIDERS

Concept project for a bar nestled in the heart of Dublin, inspired by Irish speakeasy culture during the prohibition era.

I created a brand identity to reflect the bar's welcoming atmosphere, focusing on comfort, camaraderie, and a taste of authentic Irish charm.
